# MISSISSIPPI YOUTH INSTITUTE

## MISSISSIPPI STATE UNIVERSITY

*Student Research Paper Packet*

Explanation, Steps, & Resources

2019

**The World Food Prize**  
GLOBAL YOUTH INSTITUTE

**MISSISSIPPI STATE UNIVERSITY™**  
COLLEGE OF AGRICULTURE  
AND LIFE SCIENCES

# STUDENT RESEARCH PAPER PACKET:

*Explanation, Steps, & Resources*

To participate in the Global Youth Institute, students research a developing country and specific global food security factor and write a five page paper with the guidance of a teacher/mentor at their high school. The 2018 Global Youth Institute is scheduled for mid-October in Des Moines, Iowa. The research paper is due on February 8, 2019 online.

Further details and guided instructions for the paper are found in the following document, "How to Write Your Research Paper"; and online at [www.worldfoodprize.org/youth](http://www.worldfoodprize.org/youth) by applicant's state. Please read the complete instructions to ensure eligibility. For questions, please contact Scott Willard at [swillard@cals.msstate.edu](mailto:swillard@cals.msstate.edu) or call at 662-325-0233.

## EXPLORE

- Choose a country and a critical global food security factor to research.
- Propose your own solutions to the challenges in the country of your choice.
- Discover career paths and opportunities in STEM, food, agriculture, and policy.
- Analyze how global trends shape a nation and affect the citizens of that nation.

## ENGAGE

- Exchange ideas with fellow student leaders and experts who are working to solve these real world problems every day.
- Participate in activities and team projects to understand and assist vulnerable populations.
- Tour innovative industrial and research facilities addressing issues related to food and water security, nutrition, global agriculture, and health.
- Connect with peers who want to change the world.

## EARN

- Qualify for international internships, paid USDA fellowships, and other exciting opportunities to fight hunger.
- Gain valuable academic and career advice from world-renowned experts.
- Network with global leaders in science, industry, development and policy, and receive personalized feedback on your research papers.

## STEPS TO COMPLETING THE RESEARCH PAPER

**1 STEP ONE**  
Select a country as the focus of your research  
(Page 4)

**2 STEP TWO**  
Select one key factor affecting food security  
(Page 6)

**3 STEP THREE**  
Answer the listed questions to develop your paper  
(Page 7)

**4 STEP FOUR**  
Ask a mentor to help review and edit your paper  
(Page 8)

**5 STEP FIVE**  
Submit the paper by visiting [www.cals.msstate.edu/msyouthinstitute](http://www.cals.msstate.edu/msyouthinstitute) with your mentor  
(Page 9)

**6 STEP SIX**  
Attend the Mississippi Youth Institute  
(March 22, 2019)

# HOW TO WRITE YOUR RESEARCH PAPER

*Introduction to the issues*

*"Food is the moral right of all who are born into this world." — Dr. Norman Borlaug,*

Nobel Peace Prize Laureate | World Food Prize Founder in his Nobel Peace Prize Lecture, Oslo, Norway, December 11, 1970

## BACKGROUND

Sustainably feeding the more than **9 billion** people who will be on our planet by the year 2050 is a critical issue that must be urgently addressed. Iowa native Dr. Norman Borlaug, renowned Nobel Peace Prize Laureate and World Food Prize founder, advocated throughout his life and career, as a scientist and humanitarian, that attaining global food security would require effective solutions, technologies and policies for the world's smallholders. Fittingly, his poignant final words were, "Take it to the farmer."

In today's world, almost 1 billion people — 1 out of every 9 — go to bed hungry every night. There are strong, direct relationships linking poverty, agricultural productivity, and food security. About 70% of the world's poor live in rural areas, especially in Africa and Asia. The majority of these poor subsist on about 450 million smallholder farms (five acres or less). The most critical and immediate improvements in the livelihoods of smallholders can be achieved through agriculture-led economic growth and improved nutrition and health. As rural farmers and urban gardeners are able to grow and access more and better food, improved diets and health, higher family incomes, and improved livelihoods result. Families with the financial resources to escape extreme poverty rarely suffer from chronic hunger, while poor families not only suffer the most from chronic hunger, they are also the segment of the population most at risk during food shortages. Therefore, raising incomes through improvements in agricultural productivity and food availability is a key to directly benefiting the poor.

Volatile climate effects from rising temperatures such as the increasing frequency and severity of storms, flooding and droughts, the spread of plant diseases and weeds, and rising sea levels will have significant negative impacts on agricultural productivity. Shifting trends in agricultural production driven by these effects will most severely impact the world's poorest countries in Africa and Asia, threatening the ability of smallholder farmers to overcome hunger and malnutrition.

Successful technologies and policies for enabling smallholder farmers to overcome hunger and poverty by increasing agricultural productivity must be adapted to local climatic circumstances, guided by the farmers themselves, and more readily available to them.

## WHAT IS FOOD SECURITY?

Food security is when people do not live in hunger or fear of starvation. Food insecurity exists when people are undernourished as a result of the cost or physical unavailability of food and adequate nutrition.

Worldwide, more than 925 million people - one seventh of the world population - are without enough food to eat on a regular basis and six million children die of hunger annually. Two billion people face sporadic food insecurity throughout the year, and there are 22 countries, 16 of which are in Africa, where more than one third of the population is malnourished.

# RESEARCH PAPER INSTRUCTIONS

## YOUR MISSION:

Select ONE developing country (see Step 1) and ONE of the key factors affecting food security (see Step 2) as the focus of your research. You will then prepare your paper using the guided questions (see Step 3), presenting your research findings and recommendations for increasing food production and availability in ways that improve food security and household livelihoods in your chosen country.

## STEP 1

### SELECT A COUNTRY AS THE FOCUS OF YOUR RESEARCH:

**Example:** If you consider the Indian Subcontinent, your research will focus on a factor affecting food security in ONE of these countries: Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan or Sri Lanka

**North Africa:** Algeria, Canary Islands (Spain), Egypt, Libya, Morocco (including Western Sahara), Tunisia

**Central Africa:** Angola, Cameroon, Central African Republic, Chad, Congo, Democratic Republic of the Congo, Equatorial Guinea, Gabon, Sudan, South Sudan, Zambia

**East Africa:** Burundi, Comoros, Djibouti, Eritrea, Ethiopia, Kenya, Madagascar, Malawi, Mauritius, Mayotte, Mozambique, Reunion, Rwanda, Seychelles, Somalia, Tanzania, Uganda

**West Africa:** Benin, Burkina Faso, Cape Verde islands, Cote d'Ivoire, The Gambia, Ghana, Guinea, Guinea-Bissau, Liberia, Mali, Mauritania, Niger, Nigeria, Sao Tome & Principe, Senegal, Sierra Leone, Togo

**Southern Africa:** Botswana, Lesotho, Namibia, South Africa, St. Helena (U.K.), Swaziland, Zimbabwe

**Caribbean:** Anguilla (U.K.), Antigua & Barbuda, Bahamas, Barbados, Bermuda (U.K.), Cayman Islands (U.K.), Cuba, Dominica, Dominican Republic, Grenada, Guadeloupe, Haiti, Jamaica, Martinique (France), Montserrat (U.K.), Netherlands Antilles, Puerto Rico (U.S.), St. Kitts & Nevis, St. Lucia, St. Vincent & the Grenadines, Trinidad & Tobago, Turks & Caicos (U.K.), Virgin Islands (U.K., U.S.)

**South America Tropical:** Bolivia, Brazil, Colombia, Ecuador, French Guiana, Guyana, Paraguay, Peru, Suriname, Venezuela

**South America Temperate:** Argentina, Chile, Falkland Islands (U.K.), Uruguay

**Central America:** Belize, Costa Rica, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama

**Indian Subcontinent:** Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka

**East Asia:** China, Hong Kong S.A.R. (China), Japan, Democratic People's Republic of Korea (North), Republic of Korea (South), Macao S.A.R. (China), Mongolia, Taiwan

**Southeast Asia:** Brunei, Darussalam, Burma (Myanmar), Cambodia, East Timar, Indonesia, Lao People's Democratic Republic (Laos), Malaysia, Philippines, Singapore, Thailand, Vietnam

**Central Asia:** Afghanistan, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, Uzbekistan

**Middle East:** Bahrain, Cyprus, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Oman, Qatar, Saudi Arabia, Syrian Arab Republic, Turkey, United Arab Emirates, Yemen

**Eastern Europe:** Albania, Armenia, Azerbaijan, Belarus, Bosnia/Herzegovina, Bulgaria, Croatia, Czech Republic, Estonia, Georgia, Hungary, Latvia, Lithuania, Macedonia, Moldova, Poland, Romania, Russia, Serbia, Montenegro, Slovakia (Slovak Republic), Slovenia, Ukraine

**South Pacific:** Christmas Island, Cook Island, Federated States of Micronesia, Fiji, French Polynesia (Tahiti), Guam, Kiribati, Marshall Islands, Nauru, New Caledonia, Niue, Northern Mariana Islands, Palau, Papua New Guinea, Pitcairn, Samoa, American Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu, Wake Island, Wallis & Futuna

## STEP 2

### SELECT ONE KEY FACTOR AFFECTING FOOD SECURITY

- 1. Plant Science** Increasing crop yields and improving disease/drought resistance through research and breeding of improved plant varieties.
- 2. Water Scarcity** Managing water scarcity and adapting farming practices to reduce water supplies with improved irrigation technologies and conservation practices.
- 3. Biofuels** Balancing the demand on global food and energy supplies and ensuring that developing nations also benefit from the use of biofuels.
- 4. Animal Health** Preventing the transmission of disease in livestock and poultry with improved management, investments in vaccine development, and proper application of medications to avoid antibiotic-resistance.
- 5. Climate Volatility** Responding to climate volatility by adapting agricultural practices and policies to increase carbon sequestration and support ecological resilience to erratic weather, rising temperatures/drought, saltwater intrusion, and shifting plant diseases and pest infestations.
- 6. Animal Agriculture** Implementing sustainable practices for raising livestock and poultry (management intensive grazing, integrated livestock/poultry grazing and poultry/vegetable production systems, fish pond farming systems, etc.).
- 7. Spoilage & Waste** Reducing spoilage and improving the quality and shelf life of food products with improved food preservation techniques and increased processing capacity (flash-heating, aseptic processing, freeze drying, bulk storage, etc.).
- 8. Water & Sanitation** Increasing access to safe, potable water supplies, toilets and pit latrines, and education on proper sanitation/hygiene and food preparation techniques to reduce the transmission of food and water-borne disease.
- 9. Dietary Diseases** Addressing obesity, heart disease, diabetes, and other dietary diseases through nutrition education, access to nutritious foods, and healthy behavior (dietary diversification, food selection, portion-size control, exercise, etc.).
- 10. Sustainable Agriculture** Developing and implementing sustainable agricultural practices (no-till, crop rotation, integrated pest management, etc.) to combat erosion, desertification and soil depletion and reduce pesticide/herbicide use and minimizing environmental degradation associated with industrial agricultural practices (improved animal waste disposal, conservation buffers, etc.).
- 11. Malnutrition** Alleviating micronutrient deficiencies (iron, vitamin A, iodine, zinc) and protein energy malnutrition through improved access to nutritious food, fortification, supplementation, school feeding programs, nutrition education, emergency therapeutic feeding, etc.
- 12. Human Diseases** Reducing the burden of illness and infectious diseases like HIV/ AIDS, Tuberculosis (TB), Malaria, etc., to improve human health and nutrition and raise agricultural production.
- 13. Demographics** Addressing the challenges and opportunities posed by population growth and urbanization.
- 14. Conflict Resolution** Preventing and resolving political and armed conflict with diplomatic initiatives.
- 15. Human Rights** Addressing gender, cultural and economic discrimination and improving access to credit and securing property rights for the poor and marginalized.
- 16. Education** Investing in education, training and extension for improved implementation of agricultural research and technology.
- 17. Good Governance** Reducing corruption by promoting the rule of law, government accountability, democratic principles and transparency.
- 18. International Trade** Removing discriminatory international trade policies to improve market access, promote fair trade and increase economic development.
- 19. Foreign Aid** Assisting vulnerable populations and improving the effectiveness of humanitarian relief and food aid in conflict zones and disaster sites.
- 20. Farm to Market** Improving access to markets through infrastructure development (roads and railways, internet, mobile technologies, electricity).

# STEP 3

## ANSWER QUESTIONS AND DEVELOP YOUR PAPER:

1. Choose ONE of the countries listed under Step 1 as the focus of your research.

2. Define a typical subsistence farm family or poor urban family in your country:

- a. family size and composition, diet, education and access to health care;
- b. farm size, crops grown, and agricultural practices (if researching a farm family) or employment and wage, and where they typically purchase food and have access to private or community gardens (if researching an urban family); and
- c. major barriers to improving agricultural productivity, employment and earning a living wage, and gaining access to food markets and adequate nutrition.

3. Select ONE of the key factors listed under Step 2 as the focus of your research.

4. Answer the following questions to develop your paper and understand how your selected factor affects food security in your country:

- a. How does the factor you selected affect agricultural productivity, household income or food availability and quality in your chosen country? Discuss the following:
  - i. What role does the factor presently play in causing your family to not produce enough food, earn sufficient income to purchase food, or access adequate nutrition?
  - ii. What is the present status of this factor? How severe is the situation? Is the environment being degraded? Are women, rural or urban poor, or developing countries particularly disadvantaged? If so, how?
  - iii. Are the trends for this factor improving, worsening, staying the same? How are the trends for this factor measured? Do these measurements indicate the situation is changing? If so, how? Because of potential change, or no change, is the situation for your rural farm or urban family getting worse, improving or staying the same?
- b. How would improving or resolving this factor increase the amount or quality of food or income available to your family? Preserve the environment sustainably? Lead to economic development and poverty reduction? Benefit women, smallholder farmers or urban dwellers in your country of focus?
- c. How will other major issues (climate volatility, population growth, water scarcity, urbanization, energy demand, pollution, etc.) affect your chosen factor and the wellbeing of your family and their community in the decades ahead?
- d. Based on your research, give your recommendations on how to effectively address your selected factor to improve the food security of your rural or urban family in the country on which you have focused. What Sustainable Development Goals (SDGs) and associated policies, technologies, practices or investments do you recommend to solve this situation by 2030? Describe one or more local projects in your focus country that could be scaled up successfully.
- e. Give your suggestions for the appropriate role of communities, the national government, corporations and other organizations (United Nations, World Bank, international research agencies, nongovernmental and civic organizations, etc.) in implementing your recommendations in your country. How should rural farm and urban families be involved as key players in implementing these recommendations?

# RESEARCH PAPER CHECKLIST

As you review your final paper for submission, use this checklist to ensure you have completed all of the guided instructions:

Country selected: \_\_\_\_\_

\_\_\_\_ Define a typical family

\_\_\_\_ Family size and composition

\_\_\_\_ Diet

\_\_\_\_ Education

\_\_\_\_ Access to health care

\_\_\_\_ Describe a typical farm OR urban area

\_\_\_\_ Typical Farm

\_\_\_\_ Farm size

\_\_\_\_ Crops grown or animals raised

\_\_\_\_ Agricultural practices

\_\_\_\_ OR Urban Area:

\_\_\_\_ Employment and wages

\_\_\_\_ Access to purchased food

\_\_\_\_ Urban food production

\_\_\_\_ Describe major barriers facing the typical family

\_\_\_\_ Barriers to improving agricultural productivity

\_\_\_\_ Barriers to employment at a living wage

\_\_\_\_ Barriers to accessing food markets and adequate nutrition

Factor selected:

\_\_\_\_ Describe how the factor you selected affects agricultural productivity, household income, OR food availability and quality

\_\_\_\_ Describe the effect of the factor on the typical family in your country

\_\_\_\_ Describe the present status of this factor

\_\_\_\_ Describe the trends for this factor (improving, worsening, or constant)

\_\_\_\_ Describe how improving this factor would benefit your country

\_\_\_\_ Describe how other major issues (climate volatility, population growth, water scarcity, energy demand, pollution, etc.) will affect your chosen factor

Give recommendations on how to effectively address your factor to improve food security for the typical family in the country you have selected:

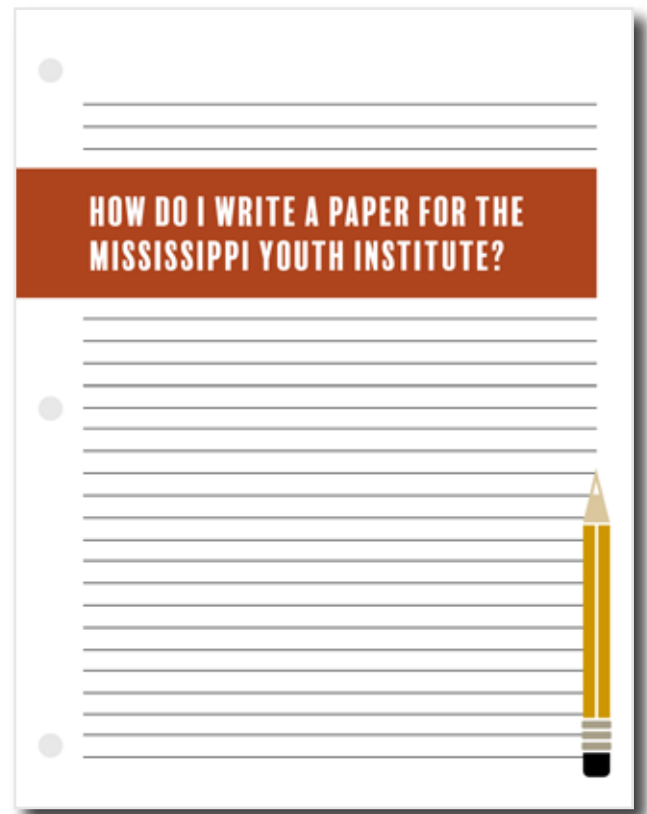

---

---

\_\_\_\_ Describe one or more local projects in your focus country that could be scaled up successfully

\_\_\_\_ Give suggestions for the appropriate role of communities, the national government, and organizations in implementing your recommendations

\_\_\_\_ Describe how the typical family can be involved in implementing your recommendations

# PAPER FORMAT REQUIREMENTS

Be sure to review the *Introduction to the Issues* and instructions on *How to Write Your Paper* before beginning your research, and follow the *Paper Format Requirements* below, as all papers will be evaluated on both content and formatting. A list of suggested references can be found in the *Sample Resources*, and the *Sample Paper* provides an example of how to format and structure your paper.

Students selected to attend the 2018 Global Youth Institute as a delegate will have their research papers peer reviewed and published on line by the World Food Prize Foundation.

## FORMAT REQUIREMENTS

Papers must include:

- **Identification in the upper left-hand corner** of the first page providing the name of the student author, high school name, school city, school state, selected country and factor number, and essay title (in bold)

Example: Sarah Anderson

Starkville High School

Starkville, MS

Afghanistan, Factor 19: Foreign Aid

Afghanistan: Social business to build infrastructure and empower farmers

- **Body of approximately 4-5 pages** in length including:
  - o an introduction and conclusion, each of which must be at least one-half page
  - o word count of approximately 2200 to 3500 words, excluding bibliography
- **Bibliography page with at least five sources and in-text citations** using the standards set by the Modern Language Association (MLA) or American Psychological Association (APA). Choose one style and use it consistently.
- **MLA Style Guide:** <http://owl.english.purdue.edu/owl/resource/747/01/>
- **APA Style Guide:** <http://owl.english.purdue.edu/owl/resource/560/01/>

Papers must be submitted as a Word (.doc or .docx) file and meet the following page format requirements:

- **One-inch page margins** (top, bottom, left, right)
- **Eleven-point (11) font, Times New Roman**
- **Single-space text, no indentation**
- **Double-space between paragraphs**

**A note on plagiarism. Plagiarism is taking someone else's work or ideas and passing them off as your own. Please do not plagiarize! Cite your sources and formulate your own original essay. Plagiarized essays cannot be accepted.**

## SUBMISSION

Submit papers by visiting [www.cals.msstate.edu/msyouthinstitute](http://www.cals.msstate.edu/msyouthinstitute) by February 8, 2019.

Contact Scott Willard, Associate Dean, College of Agriculture and Life Sciences, Mississippi State University, if you have any questions [swillard@cals.msstate.edu](mailto:swillard@cals.msstate.edu) or by phone at 662-325-0233.

# SAMPLE RESOURCES

Below are suggested resources, general and organized by factor, to aid your research.

**Note:** This is not a full resource list and use of additional resources will be needed to meet the requirements of the paper.

*The World Food Prize does not endorse any particular point of view represented in these resources.*

## MAPS, FACTS & FIGURES

### Big Facts Site

CGIAR's Research Program on Climate Change, Agriculture and Food Security (CCAFS) features over 100 infographics on this site that illustrate the most up-to-date information on these topics.  
<http://ccafs.cgiar.org/bigfacts2014/>

### Central Intelligence Agency - The World Factbook

Background information by country.  
<https://www.cia.gov/library/publications/the-world-factbook/index.html>

### United Nations Sustainable Development Goals Infographics

On September 25th, 2015, countries adopted a set of goals to end poverty, protect the planet, and ensure prosperity for all as part of a new sustainable development agenda. Each goal has specific targets to be achieved over the next 15 years.  
[www.un.org/sustainable-development/sustainable-development-goals/](http://www.un.org/sustainable-development/sustainable-development-goals/)

### Interactive Hunger Map & Country Database

World Food Programme (WFP), the United Nations' frontline agency in the global fight against hunger  
[www.wfp.org/hunger](http://www.wfp.org/hunger)

### Global Hunger Index

International Food Policy Institute (IFPRI), Concern Worldwide, Welt Hunger Hilfe, 2013.  
[www.ifpri.org/publication/2013-global-hunger-index](http://www.ifpri.org/publication/2013-global-hunger-index)

### Global Food Security Index

Measures the risks and factors that drive food security including affordability, availability, and quality and safety.  
<http://foodsecurityindex.eiu.com>

### Rural Poverty Portal

Select country from drop down menu for statistics and articles  
International Fund for Agricultural Development (IFAD)  
[www.ruralpovertyportal.org/web/guest/region](http://www.ruralpovertyportal.org/web/guest/region)

### Famine Warning System Network (FEWS NET)

Provides timely and rigorous early warning and vulnerability information on emerging and evolving food security issues.  
[www.fews.net/Pages/default.aspx](http://www.fews.net/Pages/default.aspx)

### Farming First

Highlights the importance of improving farmers' livelihoods and agriculture's potential contribution to global issues such as food security, climate change and biodiversity (includes infographics and case studies)  
[www.farmingfirst.org](http://www.farmingfirst.org)

### FAQ Infographic - Equal access to resources and power for food security in the face of climate change

The infographic describes the links between food security, gender and climate change.

**The Last Hunger Season Film Series (8 parts)** - hear directly from the African farmers featured in journalist Roger Thurow's book of the same title, 15 September 2014 <http://bit.ly/1ssV3zb>

**"The Single Greatest Challenge in Human History"** keynote by World Food Prize President, Amb. Kenneth Quinn, at the UN World Food Day Observance in New York, 23 November 2013  
[bit.ly/liFbke8](http://bit.ly/liFbke8)

**Video Interview with 2003 World Food Prize Laureate Catherine Bertini on Nutrition and Girl's Education**, Chicago Council on Global Affairs, 23 October 2013. Chicago Council Senior Fellow and former Executive Director of the UN World Food Program Catherine Bertini discusses how gender relates to agriculture, the role of nutrition in the first 1,000 days of life, and the importance of US investment in agriculture development.  
<http://globalfoodforthought.typepad.com/global-food-for-thought/2013/10/video-interview-with-catherinebertini.html>

**A New Dialogue: Putting People at the Heart of Global Development** Hunger-Nutrition-Climate Justice-2013 Conference, Dublin, Ireland, 15-16 April 2013  
[www.mrfcj.org/pdf/hncj/conference-papers.pdf](http://www.mrfcj.org/pdf/hncj/conference-papers.pdf)

**Seven Billion And Counting** On Point, NPR Audio Archives, 27 October 2011  
<http://onpoint.wbur.org/2011/10/27/seven-billion>

**Global Food Price Spikes** On Point, NPR Audio Archives, 9 February 2011  
<http://onpoint.wbur.org/2011/02/09/global-food-price-spikes>

**"Take it to the Farmer": Reaching the World's Smallholders - Proceedings of the 2010 Borlaug Dialogue** World Food Prize International Symposium, Video and Audio Archives, 15-17 October 2010  
[www.worldfoodprize.org/en/borlaug-dialogue//previous-years/2010-borlaug-dialogue](http://www.worldfoodprize.org/en/borlaug-dialogue//previous-years/2010-borlaug-dialogue)

**Silent Tsunami: Global Food Crisis** (John McArthur, Executive Director, Millennium Promise; Raj Patel, Visiting Scholar, University of California at Berkeley/ Author of "Stuffed and Starved;" and Joia Mukherjee, Medical Director, Partners in Health) On Point with Tom Ashbrook, NPR Archive, 5 May 2008.  
<http://onpoint.wbur.org/2008/05/05/silent-tsunami>

**Giving Africa Infrastructure for Growth** Talk of the Nation, NPR Audio Archives, 5 April 2006  
[www.npr.org/templates/story/story.php?storyId=5325397](http://www.npr.org/templates/story/story.php?storyId=5325397)

**How Can Scientists Help Address Poverty?** (Per Pinstrup-Andersen, 2001 World Food Prize Laureate; and other experts) Talk of the Nation, NPR Audio Archives, 17 February 2006  
[www.npr.org/templates/story/story.php?storyId=5221063](http://www.npr.org/templates/story/story.php?storyId=5221063)

**The Problems of Preventing Famine** (Natasha Quist, West Africa Regional Director, OXFAM; Marc Cohen, Research Fellow, IFPRI; and Jason Beaubien, NPR News) Talk of the Nation, NPR Audio Archives, 26 July 2005  
[www.npr.org/templates/story/story.php?storyId=4771717](http://www.npr.org/templates/story/story.php?storyId=4771717)

**Addressing Hunger and Poverty** (Jeffrey Sachs, Director, Earth Institute, Columbia University; and Lester Brown, President and Founder, Earth Policy Institute) Talk of the Nation, NPR Audio Archives, 20 May 2005  
[www.npr.org/templates/story/story.php?storyId=4660415](http://www.npr.org/templates/story/story.php?storyId=4660415)

### **UNICEF's Voices of Youth Digital Diaries**

First-person accounts by young people from around the world on issues affecting their lives  
[www.unicef.org/voy/takeaction/takeaction2692.html](http://www.unicef.org/voy/takeaction/takeaction2692.html)

# RESOURCES LISTED BY FACTOR

## Factor 1 - Plant Science

### Unleashing a Decade of Innovation in Plant Science: A Vision for 2015-2025

American Society of Plant Biologists, 2013.

<http://plantsummit.files.wordpress.com/2013/07/aspb-fina1-report-plant-summit-lo-res-web-july-15-2013.pdf>

### New Technologies for Sustained Productivity Growth: Plant Breeding

Donald Duvick. Iowa State University, 2004

<http://ageconsearch.umn.edu/bitstream/33020/1/fo04du03.pdf>

### Agricultural Biotechnology and Genetically Engineered Crops - Policy Briefs

US Agency for International Development (USAID), 2004

[http://absp2.cornell.edu/resources/briefs/documents/warp\\_briefs\\_eng\\_scr.pdf](http://absp2.cornell.edu/resources/briefs/documents/warp_briefs_eng_scr.pdf)

## Factor 2 - Water Scarcity

### Global Water Governance in the Twenty-First Century

Heather Cooley, Newsha Ajami, Mai-Lan Ha, Veena Srinivasan, Jason Morrison, Kristina Donnelly, and Juliet Christian-Smith. WorldWater, 2013

<http://worldwater.org/wp-content/uploads/sites/22/2013/07/ww8-ch1-us-water-policy.pdf>

### Beyond More Crop per Drop

Frank Rijsberman and Nadia Manning. International Water Management Institute (IWMI), 2006

[www.iwmi.cgiar.org/Publications/Other/PDF/Beyond more crop per drop.pdf](http://www.iwmi.cgiar.org/Publications/Other/PDF/Beyond%20more%20crop%20per%20drop.pdf)

## Factor 3 - Biofuels

### Biofuels and Sustainable Development

Henry Lee, William Clark, and Charan Devereaux. 2008

[www.globalbioenergy.org/fileadmin/user\\_upload/gbep/docs/2008\\_events/S\\_Servolo/San\\_Servolo\\_Biofuels\\_Report\\_FINAL.pdf](http://www.globalbioenergy.org/fileadmin/user_upload/gbep/docs/2008_events/S_Servolo/San_Servolo_Biofuels_Report_FINAL.pdf)

### The State of Food and Agriculture 2008: "Biofuels: Prospects, Risks, and Opportunities"

Food and Agriculture Organization (FAO), 2008

Full Report: [www.fao.org/docrep/011/i0100e/i0100e00.htm](http://www.fao.org/docrep/011/i0100e/i0100e00.htm)

## Factor 4 - Animal Health

### Lessons learned from the eradication of rinderpest for controlling other transboundary animal diseases

Food and Agriculture Organization (FAO), 2010

<http://www.fao.org/3/a-i3042e.pdf>

### Combating Infectious Diseases of Livestock for International Development

BBSRC and UKAid, February 2010

<http://www.bbsrc.ac.uk/documents/cidlid-brochure/>

## Factor 5 - Climate Volatility

### Micro-level Practices to Adapt to Climate Change for African Small-Scale Farmers

Till Below, Astrid Artner, et al. International Food Policy Research Institute (IFPRI), 2010

[www.fao.org/fileadmin/user\\_upload/rome2007/docs/Micro-level Practices to Adapt to Climate Change.pdf](http://www.fao.org/fileadmin/user_upload/rome2007/docs/Micro-level_Practices_to_Adapt_to_Climate_Change.pdf)

### Climate Change Response Strategies for Agriculture: Challenges and Opportunities for the 21st Century

Francesco Tubiello, Josef Schmidhuber, et al. World Bank, 2008

[www.fao.org/fileadmin/templates/em2009/docs/World Bank 2008c.pdf](http://www.fao.org/fileadmin/templates/em2009/docs/World_Bank_2008c.pdf)

## Factor 6 - Animal Agriculture

### Sustaining intensification of smallholder livestock systems in the tropics

J.J. McDermott, S.J. Staal, H.A. Freeman, M. Herrero, and J.A. Van de Steeg. Livestock Science, 2010

<http://dels.nationalacademies.org/resources/staticassets/banr/AnimalProductionMaterials/McDermottSustainingIntensification.pdf>

### Why mixed crop and livestock farming systems are central for future agriculture development

Philip Thornton. CGIAR - Climate Change, Agriculture and Food Security, 2015.

<https://ccafs.cgiar.org/research-high-light/why-mixed-crop-and-livestock-farming-systems-are-central-futureagriculture#>.

## Factor 7 - Spoilage and Water

### Increasing Food Availability by Reducing Postharvest Losses of Fresh Produce

A.A. Kader. Acta Horticultura, 2005

<http://ucce.ucdavis.edu/files/datastore/234-528.pdf>

### Postharvest losses and waste in developed and less developed countries: opportunities to improve resource use

R.J. Hodges, J.C. Buzby, and B. Bennett. Journal of Agricultural Science, 2010

<http://journals.cambridge.org/acta/abstract?aid=8030717>

## **Factor 8 - Water and Sanitation**

### **Water Quality**

UN Water, 2011

[www.unwater.org/downloads/waterquality-policybrief.pdf](http://www.unwater.org/downloads/waterquality-policybrief.pdf)

### **Compilation of 13 Factsheets on Key Sustainable Sanitation Topics**

Elisabeth von Munch, Rahul Ingle, Doreen Mballo, and Leonie Kappauf. Sustainable Sanitation Alliance, 2012

[www.sswm.info/sites/default/files/reference\\_attachments/MUENCH%20et%20al%202012%20Compilation%20of%2013%20Factsheets%20on%20Key%20Sustainable%20Sanitation%20Topics.pdf](http://www.sswm.info/sites/default/files/reference_attachments/MUENCH%20et%20al%202012%20Compilation%20of%2013%20Factsheets%20on%20Key%20Sustainable%20Sanitation%20Topics.pdf)

## **Factor 9 - Dietary Diseases**

### **Chronic Diseases Growing in Developing Nations: WHO**

Kate Kelland, Reuters (posted on Huffington Post), July 16, 2012

[www.huffingtonpost.com/2012/05/16/chronic-disease-developing-nations\\_n1520195.html](http://www.huffingtonpost.com/2012/05/16/chronic-disease-developing-nations_n1520195.html)

### **The Nutrition Transition and Obesity in the Developing World**

Barry Popkin. American Journal of Clinical Nutrition, 2001

<http://jn.nutrition.org/content/131/3/871S.full.pdf+html>

## **Factor 10 - Sustainable Agriculture**

### **Agricultural Sustainability and Intensive Production Practices**

David Tilman, Kenneth G. Cassman, Pamela A. Matson, Rosamond Naylor, and Stephen Polasky. *Nature*, 2002

[www.cedar.creek.umn.edu/biblio/fulltext/t1860.pdf](http://www.cedar.creek.umn.edu/biblio/fulltext/t1860.pdf)

### **The Paradigm of Conservation Agriculture**

J. Dumanski, R. Peiretti, J. Benetis, et al. World Association of Soil and Water Conservation, 2006

[www.unapcaem.org/publication/ConservationAgri/ParaOfCA.pdf](http://www.unapcaem.org/publication/ConservationAgri/ParaOfCA.pdf)

## **Factor 11 - Malnutrition**

### **Micronutrients (Statements and Resources)**

World Health Organization, 2012

[www.who.int/nutrition/topics/micronutrients/en/index.html](http://www.who.int/nutrition/topics/micronutrients/en/index.html)

### **Saving Lives in Africa With The Humble Sweet Potato**

Dan Charles. National Public Radio, 2012

[www.npr.org/blogs/thesalt/2012/08/15/158783117/saving-lives-in-africa-with-the-humble-sweet-potato](http://www.npr.org/blogs/thesalt/2012/08/15/158783117/saving-lives-in-africa-with-the-humble-sweet-potato)

## **Factor 12 - Human Diseases**

### **Addressing the Links among Agriculture, Malaria, and Development in Africa**

International Food Policy Research Institute (IFPRI), 2011

[www.ifpri.org/sites/default/files/publications/2020anhconfbrl6.pdf](http://www.ifpri.org/sites/default/files/publications/2020anhconfbrl6.pdf)

### **HIV/AIDS and Food Security**

Interagency Coalition on AIDS and Development, 2001

[www.icad-cisd.com/pdf/HIV\\_AIDS\\_and\\_Food\\_Security\\_ENGLISH.pdf](http://www.icad-cisd.com/pdf/HIV_AIDS_and_Food_Security_ENGLISH.pdf)

## **Factor 13 - Demographics**

### **Population Aspects in the Reduction of Hunger**

Food and Agriculture Organization of the United Nations, 2004

[www.un.org/esa/population/publications/PopAspectsMDG/04\\_FAO.pdf](http://www.un.org/esa/population/publications/PopAspectsMDG/04_FAO.pdf)

Population and Economic Development

Population Reference Bureau, 2012

[www.prb.org/pdf12/population-economic-development-2012.pdf](http://www.prb.org/pdf12/population-economic-development-2012.pdf)

## **Factor 14 - Conflict Resolution**

### **Food, Security, Justice and Peace**

Food and Agriculture Organization (FAO), 2002

[www.fao.org/world/foodsu mm it/msd /Y6808e.htm](http://www.fao.org/world/foodsu mm it/msd /Y6808e.htm)

### **Conflict: A Cause and Effect of Hunger**

Ellen Messer, Marc Cohen, and Thomas Marchione, Environmental Change and Security Program, 2001

[www.wilsoncenter.org/sites/default/files/ECS\\_P7-f eatu rearticl es-1.pdf](http://www.wilsoncenter.org/sites/default/files/ECS_P7-f eatu rearticl es-1.pdf)

### **Factor 15 - Human Rights**

#### **Underfed, Underpaid, and Overlooked: Women, the Key to Food Security in South Asia**

Ni ra Ramachandran. International Institute for Environment and Development, 2008

[pubs.iied.org/pdfs/1456011ED.pdf](http://pubs.iied.org/pdfs/1456011ED.pdf)

#### **FAQ Policy on Gender Equality: Attaining Food Security Goals in Agriculture and Rural Development**

Food and Agricultural Organization (FAO), 2013

<http://www.fao.org/docrep/017/i3205e/i3205e.pdf>

### **Factor 16 - Education**

#### **Education and the Developing World: Why Education is Essential for Development**

The Center for Global Development, 2002

[www.cgdev.org/files/2844\\_file\\_EDUCATONL.pdf](http://www.cgdev.org/files/2844_file_EDUCATONL.pdf)

#### **Girls' Education: Towards a Better Future for All**

Department For International Development (DFID). 2005

[www2.ohchr.org/english/issues/development/docs/girlseducation.pdf](http://www2.ohchr.org/english/issues/development/docs/girlseducation.pdf)

### **Factor 17 - Good Governance**

#### **Good Governance: An Overview**

International Fund for Agricultural Development, 1999

[www.ifad.org/gbdocs/e\\_b/67/e/EB-99-67-1NF-4.pdf](http://www.ifad.org/gbdocs/e_b/67/e/EB-99-67-1NF-4.pdf)

#### **Global Consultation on Governance and the Post-2015 Framework**

[www.worldwewant2015.org/governance](http://www.worldwewant2015.org/governance)

### **Factor 18 - International Trade**

#### **Promoting Market Access for the Rural Poor in order to Achieve the Millennium Development Goals**

International Fund for Agricultural Development (IFAD), 2003

[www.ifad.org/gbdocs/gc/26/e/markets.pdf](http://www.ifad.org/gbdocs/gc/26/e/markets.pdf)

#### **Improving Market Access: Toward Greater Coherence between Aid and Trade**

International Monetary Fund (IMF), 2002

[www.imf.org/external/np/exr/ib/2002/032102.htm](http://www.imf.org/external/np/exr/ib/2002/032102.htm)

### **Factor 19 - Foreign Aid**

#### **Foreign Aid Reform : Studies and Recommendations**

Susan Epstein and Mathew Weed. Congressional Research Service (CRS), 2009

[www.fas.org/sgp/crs/row/R40102.pdf](http://www.fas.org/sgp/crs/row/R40102.pdf)

#### **Renewing American Leadership in the Fight Against Global hunger and Poverty**

Catherine Bertini and Dan Glickman. Chicago Council on Global Affairs, 2009

[http://faculty.maxwell.syr.edu/cbertini/Publication/GADP\\_Final\\_Exec\\_Summary.pdf](http://faculty.maxwell.syr.edu/cbertini/Publication/GADP_Final_Exec_Summary.pdf)

### **Factor 20 - Farm to Market**

#### **Infrastructure and Poverty Reduction - What is the Connection?**

Ifzal Ali and Ernesto Pernia. Asian Development Bank, 2003

<http://www.adb.org/publications/infrastructure-and-poverty-reduction-what-connection>

#### **Rural Infrastructure and Agricultural Development**

Per Pinstrup-Andersen and Satoru Shimokawa. World Bank, 2006

[http://siteresources.worldbank.org/INTDECABCTOK2006/Resources/Per\\_Pinstrup\\_Andersen\\_Rural\\_Infrastructure\\_re..PQf](http://siteresources.worldbank.org/INTDECABCTOK2006/Resources/Per_Pinstrup_Andersen_Rural_Infrastructure_re..PQf)

**The World Food Prize**  
GLOBAL YOUTH INSTITUTE

**MISSISSIPPI STATE UNIVERSITY™**  
COLLEGE OF AGRICULTURE  
AND LIFE SCIENCES

Mississippi State University is an equal opportunity institution. Discrimination in university employment, programs or activities based on race, color, ethnicity, sex, pregnancy, religion, national origin, disability, age, sexual orientation, genetic information, status as a U.S. veteran, or any other status protected by applicable law is prohibited. Questions about equal opportunity programs or compliance should be directed to the Office of Compliance and Integrity, 56 Morgan Avenue, P.O. 6044, Mississippi State, MS 39762, (662) 325-5839.
